

# Plants – Year 2

**Plants can grow from seeds or bulbs -**

<b>seeds</b>	<b>bulbs</b>
	

**Seeds and bulbs germinate and grow into seedlings**

**Seedlings then grow into mature plants**

Key vocabulary	
<b>bulb</b>	A root shaped like an onion that grows into a new plant.
<b>germinate</b>	When a seed begins to grow its shoots. Seeds need warmth and water to germinate.
<b>seedling</b>	A young plant that has grown from a seed.
<b>bud</b>	Growth on a plant that develops into a stem, leaf or shoot.
<b>berry</b>	Small, juicy fruit without a stone.

Significant scientist	
<p><b>David Douglas</b> (1799-1834)</p> 	<p>David Douglas was a Scottish botanist, best known as the namesake of the Douglas-fir. He worked as a gardener, and explored the Scottish Highlands, North America, and Hawaii.</p>

<b>Some plants grow best in full sun.</b>	<b>Some plants grow best in the shade.</b>
	
<b>Some plants need lots of water.</b>	<b>Some plants don't need much water.</b>
	

**What does a plant need to grow and stay healthy?**

Some plants grow quickly and some grow more slowly.
